I'm running for San Ramon City Council because I'm inspired by the safe, diverse and compassionate community that we are, and the climate-conscious, equitably growing and modern city that we can be. We've got an incredible community with innovative, kind, and hardworking people. Our potential is limitless.

I graduated from California High School then earned my degree in Mechanical Engineering from California Polytechnic State University. In 2021, I joined the San Ramon Innovation and Technology Advisory Committee. That same year, a group of activists and I created a local climate coalition. Now, I'm running for a seat at the table.

Here's what lies ahead for a strong San Ramon:

Climate action - we can define what effective local climate action looks like. Our infrastructure should be energy and resource efficient. Our transit and pedestrian systems can reduce traffic and carbon emissions. Our Climate Action Plan, which took time and money to set forth, should be fully implemented.

Community Safety - we can create a San Ramon that is safe, accessible, and fun for people of all ages, abilities, and identities. I will build bridges with safety and law enforcement agencies. I will prioritize well-maintained pedestrian paths, and a comprehensive bike lane network that is designed to prevent biker-driver collisions. I will support and amplify our local wildfire management and mental health services.

Conscious growth & local economy- we can grow our city and welcome local shops and new neighbors, all while sustaining a safe, clean, low-traffic quality of life and protecting our green space.

Technology and innovation - San Ramon excels in its use of technology to advance city matters. However, that technology is only as effective as the residents' willingness to embrace it. Let's bridge the digital divide and ensure that every resident knows how to engage in local affairs through technology. Furthermore, as we integrate intelligent traffic systems, citywide wifi, and other technological initiatives, we must acknowledge any potential anxieties and assure residents that these technologies will only strengthen our city and promote their safety.

Local democracy- resident engagement and public input is a top priority. We can strengthen our democracy on the municipal level and set an example for other cities by championing ranked choice voting and term limits.

I'm a Cal High graduate, a mechanical engineer, an Innovation and Technology Advisory Committee member, and I'd be honored for your vote.

CODE OF FAIR CAMPAIGN PRACTICES

(Elections Code § 20440)

There are basic principles of decency, honesty, and fair play which every candidate for public office in the State of California has a moral obligation to observe and uphold in order that, after vigorously contested but fairly conducted campaigns, our citizens may exercise their constitutional right to a free and untrammelled choice and the will of the people may be fully and clearly expressed on the issues.

THEREFORE:

- (1) I SHALL CONDUCT my campaign openly and publicly, discussing the issues as I see them, presenting my record and policies with sincerity and frankness, and criticizing without fear or favor the record and policies of my opponents or political parties that merit this criticism.
- (2) I SHALL NOT USE OR PERMIT the use of character defamation, whispering campaigns, libel, slander, or scurrilous attacks on any candidate or his or her personal or family life.
- (3) I SHALL NOT USE OR PERMIT any appeal to negative prejudice based on a candidate's actual or perceived race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age, sexual orientation, sex, including gender identity, or any other characteristic set forth in Section 12940 of the Government Code, or association with another person who has any of the actual or perceived characteristics set forth in Section 12940 of the Government Code.
- (4) I SHALL NOT USE OR PERMIT any dishonest or unethical practice that tends to corrupt or undermine our American system of free elections, or that hampers or prevents the full and free expression of the will of the voters including acts intended to hinder or prevent any eligible person from registering to vote, enrolling to vote, or voting.
- (5) I SHALL NOT coerce election help or campaign contributions for myself or for any other candidate from my employees.
- (6) I SHALL IMMEDIATELY AND PUBLICLY REPUDIATE support deriving from any individual or group that resorts, on behalf of my candidacy or in opposition to that of my opponent, to the methods and tactics that I condemn. I shall accept responsibility to take firm action against any subordinate who violates any provision of this code or the laws governing elections.
- (7) I SHALL DEFEND AND UPHOLD the right of every qualified American voter to full and equal participation in the electoral process.
